

## SLS SELF-RESET PASSWORD GUIDE

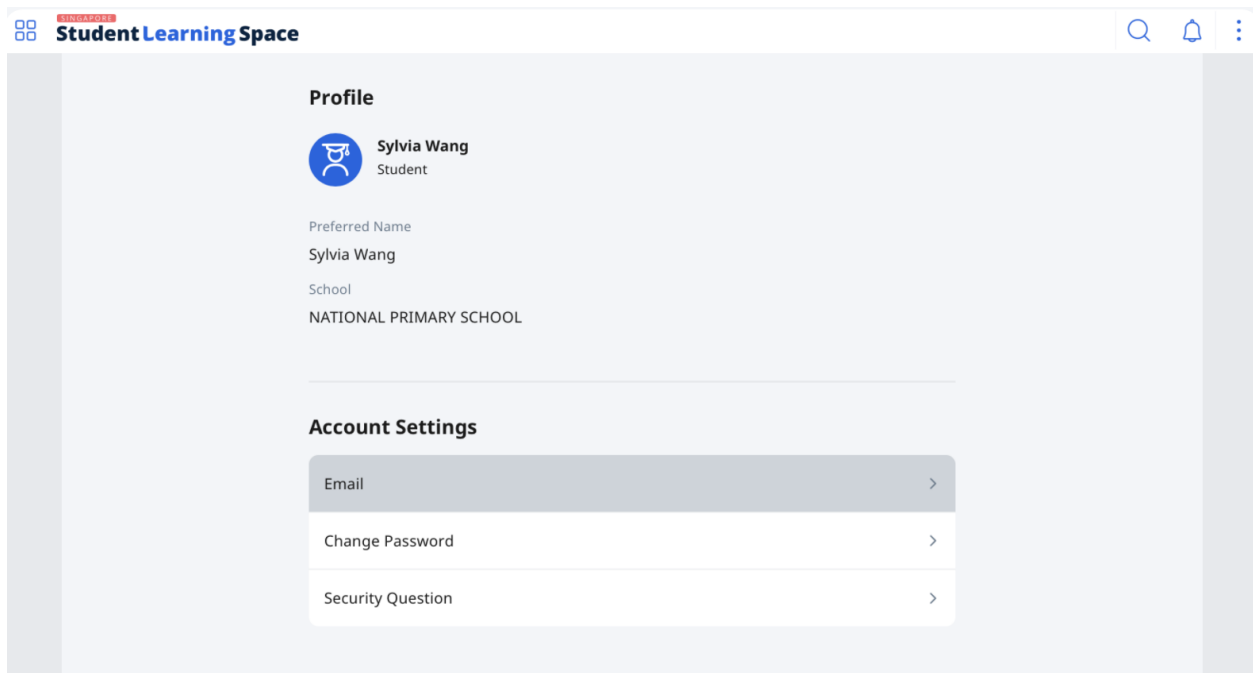

Dear parents,

In case your child has forgotten his/her SLS password, you may reset it on your own.

If you have previously entered your email address and set the answers to the 3 security questions, you may reset the SLS password through the password reset link.

You may follow the instructions below:

1. In the sidebar on the right, click on the Vertical Ellipsis (three-dot) icon.
2. Click on Edit Profile.
3. In the Profile page, select Email under Account Settings.
4. You will need to enter an email address under Alternate Email.
5. Click Save.

The screenshot shows the 'Student Learning Space' interface. At the top left is the logo and name 'Student Learning Space'. At the top right are icons for search, notifications, and a menu. The main content area is titled 'Profile' and features a user profile for 'Sylvia Wang', a student at 'NATIONAL PRIMARY SCHOOL'. Below the profile information is the 'Account Settings' section, which contains three menu items: 'Email', 'Change Password', and 'Security Question', each with a right-pointing arrow indicating further options.
